Faculty of Sciences and Mathematics

Prof. dr Milan Zlatanović

• **MISSION AND VISION**

- The mission of the Faculty of Sciences and Mathematics is to deliver top-notch education in the areas of natural and mathematical sciences, thereby providing primary and secondary schools, institutes, companies, and industry with qualified teachers, researchers, and engineers who will be able to respond to the ever growing scientific, technological, and research challenges.
- The vision of the Faculty of Sciences and Mathematics is to reach the level of a developed institution of higher learning in its own fields of study so that the achieved quality would guarantee the Faculty the status of a developed European institution and open the possibility of it becoming the leading scientific center in the region.

The third level academic studies (PhD studies of 3 years in duration)

The Faculty offers six academic programs which lead to the following academic titles:

- PhD in Mathematical Sciences,
- Doctoral School of Mathematics,
- PhD in Computer Science,
- PhD in Physical Sciences,
- PhD in Chemical Sciences,
- PhD in Biological Sciences.

POPULARIZATION OF SCIENCE

Our students, as well as professors, take part in the following manifestations:

- **The Science Festival „Nauk nije bauk“**

Traditionally, every spring, in cooperation with the High School „Svetozar Marković“, the Faculty participates with interesting scientific performances that attract many children and adults.

- **Researcher's Night:**

Another traditional manifestation where interesting, unusual witty interpretations of mathematical ideas are presented.

SCIENTIFIC RESEARCH

- **The Faculty is currently involved in a national and international projects that span across fundamental research, technological development, integrated study, and interdisciplinary research. Over 80% academic staff participate in the realization of the national research projects.**
- **The Faculty is also involved in ERASMUS+, TEMPUS and HORIZONT 2020 projects.**
- **Our students takes part in educational/scientific conferences and professional symposia in the country and abroad. The Faculty itself has organized a number of significant scientific meetings.**

Thanks!
