

Preface

The international conference **20th Geometrical Seminar 2018**, was held at Vrnjačka Banja, Serbia from May 20th to 23rd, 2018.

This special issue of journal Filomat gathers peer-reviewed papers presented at the the conference from different geometric topics. The spectrum of papers ranges from theoretical research to applications in several fields of science.

The 20th Geometrical Seminar had more than 120 participants from all over the world. This is traditional meeting bringing together mathematicians, physicists and engineers interested in Geometry and its applications. The aim of the Geometrical Seminar is to enable researches to give lectures on new results, exchange ideas, problems and conjectures, this idea. This issue contains papers presented at the 20th Geometrical Seminar. The papers were accepted for presentation after having been subjected to the usual strict reviewing process of the conference committee. The editors thank the members of the Committees of Geometrical Seminar and to the Faculty of Sciences and Mathematics, Niš, Faculty of Mathematics, Belgrade, to the Faculty of Science, Kragujevac and Mathematical Institute SANU for their great effort in organizing this conference.
